

# Dancik Open-WebService Reference

## Function ID/Path : /ssm/submitSelectionReport

This function submits a selection pdf for distribution.

### Inputs :

| Variable                        | Type         | Req? | Description                    |
|---------------------------------|--------------|------|--------------------------------|
| ssm_id                          | decimal(9,0) | Y    | Selection Sheet#.              |
| filename                        | string       |      | PDF File Name                  |
| ssm_UsePricingAccount           | decimal(6,0) |      | Default Pricing Account#       |
| ssm_SelectedPricingAccount      | decimal(6,0) |      | Selected Pricing Account#      |
| ssm_IncludeZeroQuantities       | string       |      | Include Zero Quantities        |
| ssm_IncludePreviouslyOrderItems | string       |      | Include Previously Order Items |
| ssm_PagebreakOnRoomTypes        | string       |      | Pagebreak On Room Types        |
| ssm_PrintHeaderNotes_Page       | string       |      | Print Header Notes Page        |
| ssm_PrintDisclaimer_Page        | string       |      | Print Disclaimer Page          |
| ssm_PrintSummary_Page           | string       |      | Print Summary Page             |
| ssm_PrintConsumerName_Label     | string       |      | Print Consumer Name Page       |
| ssm_UseDisplaySequenceSorting   | string       |      | Use Display Sequence Sorting   |
| ssm_HideExtendedPricing         | string       |      | Hide Extended Pricing          |
| ssm_HideTotals_Subtotals        | string       |      | Hide Totals and SubTotals      |
| ssm_EnableAdditionalDateInfo    | string       |      | Enable Additional Date Info    |
| ssm_PrintAlternateAddress       | string       |      | Print Alternate Address        |
| subject                         | string       |      | Email Subject                  |
| message                         | string       |      | Email Message                  |
| emails                          | string       |      | Email Address                  |

#### Example (XML) :

```
<dancik-api-request>
  <ssm_id> XXX </ssm_id>
  <filename> XXX </filename>
  <ssm_UsePricingAccount> XXX </ssm_UsePricingAccount>
  <ssm_SelectedPricingAccount> XXX </ssm_SelectedPricingAccount>
  <ssm_IncludeZeroQuantities> XXX </ssm_IncludeZeroQuantities>
  <ssm_IncludePreviouslyOrderItems> XXX </ssm_IncludePreviouslyOrderItems>
  <ssm_PagebreakOnRoomTypes> XXX </ssm_PagebreakOnRoomTypes>
  <ssm_PrintHeaderNotes_Page> XXX </ssm_PrintHeaderNotes_Page>
  <ssm_PrintDisclaimer_Page> XXX </ssm_PrintDisclaimer_Page>
  <ssm_PrintSummary_Page> XXX </ssm_PrintSummary_Page>
  <ssm_PrintConsumerName_Label> XXX </ssm_PrintConsumerName_Label>
  <ssm_UseDisplaySequenceSorting> XXX </ssm_UseDisplaySequenceSorting>
  <ssm_HideExtendedPricing> XXX </ssm_HideExtendedPricing>
  <ssm_HideTotals_Subtotals> XXX </ssm_HideTotals_Subtotals>
  <ssm_EnableAdditionalDateInfo> XXX </ssm_EnableAdditionalDateInfo>
  <ssm_PrintAlternateAddress> XXX </ssm_PrintAlternateAddress>
  <subject> XXX </subject>
  <message> XXX </message>
  <emails> XXX </emails>
</dancik-api-request>
```

#### Example (JSON) :

```
{
  "ssm_id" : " XXX " ,
  "filename" : " XXX " ,
  "ssm_UsePricingAccount" : " XXX " ,
  "ssm_SelectedPricingAccount" : " XXX " ,
  "ssm_IncludeZeroQuantities" : " XXX " ,
  "ssm_IncludePreviouslyOrderItems" : " XXX " ,
  "ssm_PagebreakOnRoomTypes" : " XXX " ,
  "ssm_PrintHeaderNotes_Page" : " XXX " ,
  "ssm_PrintDisclaimer_Page" : " XXX " ,
  "ssm_PrintSummary_Page" : " XXX " ,
  "ssm_PrintConsumerName_Label" : " XXX " ,
  "ssm_UseDisplaySequenceSorting" : " XXX " ,
  "ssm_HideExtendedPricing" : " XXX " ,
  "ssm_HideTotals_Subtotals" : " XXX " ,
  "ssm_EnableAdditionalDateInfo" : " XXX " ,
  "ssm_PrintAlternateAddress" : " XXX " ,
  "subject" : " XXX " ,
  "message" : " XXX " ,
  "emails" : " XXX "
}
```

### Outputs :

Layout name : success

# Dancik Open-WebService Reference

## Function ID/Path : /ssm/submitSelectionReport

This function submits a selection pdf for distribution.

| Variable | Type | Description |
|----------|------|-------------|
|          |      |             |

### Example (XML) :

```
<dancik-api-response>
  <success>
    <> XXX </>
  </success>
</dancik-api-response>
```

### Example (JSON) :

```
{
  "success": {
    "": " XXX "
  }
}
```

### History :

| Date       | Description |
|------------|-------------|
| 03/10/2012 | New Call    |
